

We, the United States citizens, give Sinclair the right to use our public airwaves free of charge. You manage them for us. They are obligated by law to serve us, the public. But when large companies control the airwaves, we get more of what their owners believe, with their political bias than objective news. I want my airwaves used to tell me about what happens in my community, rather than what a few owners believe. They have no right to misuse my property that way.

Sinclair's actions show why we need to strengthen media ownership rules. Getting a valuable public license renewed should be harder than a personal drivers license. Thank you.
